“Malaria is the forefront of priorities for the World Health Organization (WHO). Our lead product is GREENEX™ our Organic Insecticide, available in either solid or liquid form. GREENEX™ neutralizes and eradicates up to 98% of the mosquito larvae, within only a 24 hours period. “ stated Dr Chaumillon. “ I think that the Mali government agencies are very serious about Bio-Solutions and our Organic Insecticide GREENEX™. Once in Mali, next week Mr. Dicko will get more of an immediate idea as to the needs of the Nation.”

In North America we take our luxuries for granted; however, the next time we go to our Country Club/ Golfing/ Fishing outing / Playing Tennis/ playing Soccer or football, these are all family developed areas where GREENEX™ treatment will be used in Africa.
